In considering the balance between identified legitimate interests and the rights and interests of the individuals concerned, we must consider if the proposed disclosure would be within the reasonable expectations of the individual when the data was collected.

We believe that disclosure of the personal information relating to these individuals would be contrary to the requirements of Article 5(1)(a) of the GDPR; namely that information must be processed lawfully, fairly and in a transparent manner. These individuals would have no expectation that this information would be made publicly available, and we have not identified a lawful basis that would allow or require us to disclose this information.

We have followed the Information Commissioner's guidance in assessing whether it is fair to disclose the information under FOIA. This involves considering the nature of the information, the expectations of, and potential harm (of disclosure) to, the data subjects, and how any legitimate public interest in this information is balanced against the rights and freedoms of the data subjects.

In considering a disclosure under FOIA, we must consider that any information released under the Act will be placed in the public domain, through our own disclosure log or by other means.

In accordance with the Information Commissioner's directive on the disclosure of information under the Freedom of Information Act 2000 your request will form part of our disclosure log. Therefore, a version of our response which will protect your anonymity will be posted on the NHS ICB website <https://northeastnorthcumbria.nhs.uk/>.
