

NHS North East and North Cumbria
Board Assurance Framework 2024-25 (Q3 24/25)

Background

The Board Assurance Framework aligns to the Integrated Care Strategy which is a joint plan between our local authorities, the NHS and our partners including the community, voluntary and social enterprise sector who form our Integrated Care Partnership (ICP). The ICP is responsible for setting and developing our strategy for health and care in the region and therefore the risks to delivery of the strategic goals have been used to inform the Board Assurance Framework. The Board Assurance Framework has been completed in line with the ICB's risk management strategy which can be accessed here <https://northeastnorthcumbria.nhs.uk/media/i0onvrf0/icbp037-risk-management-strategy-23-24-3.pdf>

NHS North East and North Cumbria – Board Assurance Framework 2024-25 – principal risks

Four principal risks to achieving the ICB's strategic goals have been identified against which current ICB risks are mapped:

Strategic goal	Overarching risk	Current score (highest score of current risks)	Target score (by 2030)	Aligned risks in corporate risk register		Responsible committee
 Longer & healthier lives	The ICB fails to commission services in a way that tackles the wider causes of ill health, and life expectancy of people within the North East and North Cumbria is not improving. The gap between how long people live in the North East and North Cumbria compared to the rest of England is not on track to reduce by 10% by 2030.	12	8 (was 9)	NENC/0001 NENC/0009 NENC/0024	NENC/0025 NENC/0047 NENC/0079	QSC EC
 Fairer outcomes for all	Our health and care services are not delivered in a way in which improves the outcomes of communities who currently have much poorer health outcomes. The gap between the inequality in life expectancy and healthy life expectancy at birth between people living in the most deprived and least deprived 20% of communities is not on track to narrow by 10% by 2030.	16	12 (was 10)	NENC/0004 NENC/0006 NENC/0028	NENC/0049 NENC/0052 NENC/0086 NENC/0087 NENC/0091	QSC FPIC EC
 Better health & care services	The quality of commissioned health and care services varies across the ICB area and in some places falls below our high expectations for our public and patients. The ICB does not achieve a good or outstanding rating from the Care Quality Commission (CQC) and the percentage of regulated services across social care, primary care and secondary care that are rated as good or outstanding by the CQC is declining.	20	10 (was 12)	NENC/0023 NENC/0034 NENC/0032 NENC/0065 NENC/0067	NENC/0075 NENC/0081 NENC/0082 NENC/0084 NENC/0085 NENC/0090	QSC FPIC EC
 Giving children and young people the best start in life	We fail to deliver health and care services which give children the best start in life. The percentage of children with good school readiness when they join the reception class (including children from disadvantaged groups) is declining.	16	12	NENC/0027 NENC/0066		QSC EC

QSC – Quality and Safety Committee
FPIC – Finance, Performance and Investment Committee
EC - Executive Committee

NENC Board Assurance Framework 2024-25						Q3	Date: 13 November 2024
Goal 1	Longer and healthier lives for all					Lead director(s)	Ann Fox
Risk category	Quality; System recovery						Jacqueline Myers
Principal risk	The ICB fails to commission services in a way that tackles the wider causes of ill health, and life expectancy of people within the North East and North Cumbria is not improving.					Lead Committee(s)	Quality and Safety Committee Executive Committee
	The gap between how long people live in the North East and North Cumbria compared to the rest of England is not on track to reduce by 10% by 2030.		Rationale for current score System Resilience, Escalation Planning and Management and Business Continuity arrangements				
Risk scores						Primary care services pressures Quality of commissioned services that fall below the required standards, putting patient health, safety and welfare at risk. Significant workforce pressures in maternity services across the system High rates of suspected suicides Patient safety concerns - Complex care case management in Tees Valley

Key controls			Assurances			Gaps	
System-wide surge and escalation plan; ICB Business Continuity Plan; Emergency Planning, Resilience and Response (EPRR) compliance; requirement for providers to notify ICB if Operational Pressures Escalation Levels (OPEL) status is escalated. Place Based Delivery Urgent and Emergency Care groups.			Annual business continuity cycle. Annual Emergency Planning, Resilience and Response (EPRR) submission to NHS England (NHSE). NHSE regional operational centres provide regional scrutiny and challenge. Addressed in contract meetings if Operational Pressures Escalation Levels (OPEL) status is repeatedly escalated. Escalation process includes close liaison with place-based teams. NHSE regional operational centre provides scrutiny and challenge.			ICB business continuity currently being reviewed in line with changes during ICB 2:0	
Strategic Data Collection Service (SDCS) reporting system to monitor Workforce; Primary Care Network (PCN) transformation agenda linked to Long Term Plan; Primary Care Access Recovery Plan (PCARP); System Overview Group; ICB Primary Care Strategy and Delivery Subcommittee			Monitoring at place-based delivery primary care commissioning groups; Single OPEL framework agreed to ensure consistency across the ICB and promote increased reporting of OPEL levels; monitoring at place-based delivery primary care commissioning groups			None identified.	
Main provider contracts contain clear performance expectations. All large providers on NHS Standard Contract and have CQUIN schemes. ICB designated posts to drive quality. Care Quality Commission (CQC) inspections.			Quality and Safety Committee agenda and minutes. ICB Board agenda and minutes. Audit committee agenda and minutes. Executive committee agenda and minutes. CQC inspection reports and HealthWatch			None identified.	
Workforce steering group. Local Maternity and Neonatal System (LMNS) Leads and LMNS Coordinators working with providers.			Membership from NHS providers and NHS England – terms of reference, meeting notes and action plans. Regional Maternity Transformation Board oversight. Regional Perinatal Quality Oversight Board. Birth Rate Plus in place with providers. Maternity and neonatal workforce census undertaken by NHSE.			Fragmentation within ICB around workforce planning means information not consistently being fed into LMNS.	
Quality and accountability of commissioned services; Tackling means and methods of suicide; improving services through listening and learning from individuals and families; equitable, effective and targeted treatment and support for groups known to be at high risk of suicide; Programme group established; Support and training for NHS staff to increase skills and capability; providing effective and appropriate crisis support.			Mental health learning disabilities and autism (LDA) subcommittee terms of reference, minutes, programme reports, performance report; Suicide audit in Cumbria, Northumberland, Tyne and Wear NHS Foundation Trust (CNTW) footprint initially; CNTW/ Tees, Esk and Wear Valleys NHS Foundation Trust (TEWV) peer network and volunteer bank support; ICP strategy and NHS England national suicide prevention strategy now available; suicide prevention strategy			Tees, Esk and Wear Valleys NHS Foundation Trust (TEWV) footprint for audit cluster and increasing trend response not consistent across local authorities. Availability of data and funding for training and post intervention support services, specifically children and young people	
Review of caseload and programme of visits, utilising a consistent methodology			Planned programme of review based on Red/Amber/Green (RAG) rating within a 4-month timescale. Methodology devised to be used during visits including guidance and escalation. Mobilisation plan developed with action owners and timescales to cover all elements of the programme. Monitoring of individual cases and performance to be reported on a weekly basis. NHSE are part of the incident management group and CQC have been informed.			Currently there are unknown risks to individuals on the caseload. Unknown risk until the caseload has been reviewed.	
Linked Risks							

Ref	Category	Description	Previous Score	Current score	Movement
NENC/0001	System recovery	System resilience, escalation planning and management and business continuity arrangements could lead to communities not receiving level of care needed during an incident, increased pressure across the system and inability to delivery core services	12	12	◀▶
NENC/0009	System recovery	As a result of workforce pressures, increased demand, infrastructure or technology issues, failure of or challenges to PCNs' ability to meet transformation agenda there is a risk that primary care is unable to provide long term, sustainable and reliable quality care services to patients	12	12	◀▶
NENC/0024	Quality	The ICB commissions services that fall below the required standards, putting patient health, safety and welfare at risk.	12	12	◀▶
NENC/0025	System recovery	If maternity services do not have adequate staff to provide safe services there is a risk to patient safety and patient experience.	12	12	◀▶
NENC/0047	Quality	The rates of suicide in the North East and North Cumbria are the highest in the country at 13.4 per 100,000 people. The risk to the ICB is that we do not suicide rate for people in contact with NHS commissioned and health care delivery services who may be amendable to healthcare preventative efforts.	12	12	Re-opened
NENC/0079	Quality	Patient safety concerns – complex care case management in Tees Valley. As a result of changes in complex case management, there has been inconsistent and variable oversight of the caseload, which has and could result in quality and safety concerns including the exposure and actual risk of harm (safeguarding harms).	12	-	Closed
