Dear Applicant

Freedom of Information Act 2000 – Request for Information – NHS North East and North Cumbria Integrated Care Board (NENC ICB)

Thank you for your request received by North of England Commissioning Support (NECS) on 1 August 2024 for information held by NHS North East and North Cumbria Integrated Care Board (the ICB) under the provisions of the Freedom of Information Act 2000.

The ICB covers the areas of County Durham, Gateshead, Newcastle, North Cumbria, North Tyneside, Northumberland, South Tyneside, Sunderland, and Tees Valley (which covers the five local authorities of Darlington, Hartlepool, Middlesbrough, Redcar and Cleveland and Stockton-on-Tees).

Please find the information you requested on behalf of the ICB as follows.

Your Request

I am writing to you under the Freedom of Information Act 2000 to request updated information on the commissioning of ear wax removal services by North East and North Cumbria Integrated Care Board. Please could you provide me with answers to the questions below?

1. Does the integrated care board currently commission an ear wax removal service or services within primary care or community ear care services, available to all patients registered with GP practices within the ICS's boundary, as per NICE guidance?
2. If a wax removal service in primary or community care is not currently available to all patients, is there a plan to set up such a service in future, or to review the need for this service? If no, why not?
3. If a wax removal service is commissioned, how can a patient access this service or services when it is considered clinically necessary and/or self-care advice, if appropriate, has been unsuccessful?
4. If the integrated care board does commission a wax removal service within primary care or community care, please provide the name or names of commissioned providers and their address or addresses.

5. Does the integrated care board have a policy or guidance on ear wax removal and/or referral pathways for its primary care providers for patients for whom the benefit of ear wax removal is clinically indicated? If the integrated care board has issued such guidance, please provide a copy.
6. Can you provide a copy of any guidance the integrated care board provides to patients and/or clinicians on the self-management of symptomatic ear wax?
7. How many complaints has the integrated care board received from patients about difficulty in accessing or inability to access a wax removal service in the last 24 months?
