NHS North East and North Cumbria

Board Assurance Framework 2024-25 (Q2 24/25)

Background

The Board Assurance Framework aligns to the Integrated Care Strategy which is a joint plan between our local authorities, the NHS and our partners including the community, voluntary and social enterprise sector who form our Integrated Care Partnership (ICP). The ICP is responsible for setting and developing our strategy for health and care in the region and therefore the risks to delivery of the strategic goals have been used to inform the Board Assurance Framework.

The Board Assurance Framework has been completed in line with the ICB's risk management strategy which can be accessed here https://northeastnorthcumbria.nhs.uk/media/gdfbshss/icbp037-risk-management-strategy-2-23-24.pdf

NHS North East and North Cumbria – Board Assurance Framework 2024-25 – principal risks Four principal risks to achieving the ICB's strategic goals have been identified against which current ICB risks are mapped:

Strategic goal	Overarching risk	Current score (highest score of current risks)	Target score (by 2030)		in corporate risk gister	Responsible committee
Longer & healthier lives	The ICB fails to commission services in a way that tackles the wider causes of ill health, and life expectancy of people within the North East and North Cumbria is not improving. The gap between how long people live in the North East and North Cumbria compared to the rest of England is not on track to reduce by 10% by 2030.	12	9	NENC/0001 NENC/0009 NENC/0024	NENC/0025 NENC/0047 NENC/0079	QSC EC
Fairer outcomes for all	Our health and care services are not delivered in a way in which improves the outcomes of communities who currently have much poorer health outcomes. The gap between the inequality in life expectancy and healthy life expectancy at birth between people living in the most deprived and least deprived 20% of communities is not on track to narrow by 10% by 2030.	16 (was 15)	10	NENC/0004 NENC/0006 NENC/0028	NENC/0049 NENC/0051 NENC/0052	QSC FPIC
Better health & care services	The quality of commissioned health and care services varies across the ICB area and in some places falls below our high expectations for our public and patients. The ICB does not achieve a good or outstanding rating from the Care Quality Commission (CQC) and the percentage of regulated services across social care, primary care and secondary care that are rated as good or outstanding by the CQC is declining.	20	12	NENC/0023 NENC/0031 NENC/0032 NENC/0065 NENC/0067	NENC/0075 NENC/0077 NENC/0081 NENC/0082 NENC/0084 NENC/0085	QSC FPIC EC
Giving children and young people the best start in life	We fail to deliver health and care services which give children the best start in life. The percentage of children with good school readiness when they join the reception class (including children from disadvantaged groups) is declining.	16	12	NENC/0027 NENC/0066		QSC EC

QSC – Quality and Safety Committee

FPIC – Finance, Performance and Investment Committee

EC - Executive Committee

						NENC Board Assurance Framework 2024-25	C	Q2	Date: 19 Sep	otember 2024		
Goal 1	Longer a	nd health	ier lives for all					David Purd	ue			
Risk category	Quality; S	System rec	covery				Lead director(s)	Jacqueline	Myers			
			mmission services ot improving.	in a way th	at tackles t	he wider causes of ill health, and life expectancy of people within the North East and	Lead Committee(s) Quality and Safety Committee Executive Committee					
Principal risk	and North	n Cumbria o reduce l	ow long people live compared to the re by 10% by 2030.			Rationale for current score System Resilience, Escalation Planning and Management and Business Continuity arran	gements					
_		Risk	scores			Primary care services pressures						
	Target			urrent		Quality of commissioned services that fall below the required standards, putting patient	health, safety and welfare at risk.					
Consequence	3	9	Consequence	4	12	Significant workforce pressures in maternity services across the system						
Likelihood	3		Likelihood	3		Patient safety concerns - Complex care case management in Tees Valley						
Key controls						Assurances	Gaps

CQC inspection reports and HealthWatch	None identified.					
Workforce steerii Local Maternity a working with prov	and Neonata	l System	(LMNS) Leads and	LMNS Cod	ordinators	Membership from NHS providers and NHS England – terms of reference, meeting notes and action plans. Regional Maternity Transformation Board oversight. Regional Perinatal Quality Oversight Board. Birth Rate Plus in place with providers. Maternity and neonatal workforce census undertaken by NHSE.	Fragmentation within ICB around workforce planning means information not consistently being fed into LMNS.					
methods of suici individuals and fi support for group Programme group	ide; improvi amilies; equ ips known to up establish	ng service itable, eff be at hig ed; Suppo	rt and training for N	and learnir I treatment NHS staff to	ng from and o increase	Mental health learning disabilities and autism (LDA) subcommittee terms of reference, minutes, programme reports, performance report; Suicide audit in Cumbria, Northumberland, Tyne and Wear NHS Foundation Trust (CNTW) footprint initially; CNTW/ Tees, Esk and Wear Valleys NHS Foundation Trust (TEWV) peer network and volunteer bank support; ICP strategy and NHS England	Tees, Esk and Wear Valleys NHS Foundation Trust (TEWV) footprint for audit cluster and increasing trend response not consistent across local authorities. Availability of data and funding for training and post intervention support					
skills and capabi	ility; providi	ng effectiv	e and appropriate	crisis supp	ort.	national suicide prevention strategy now available; suicide prevention strategy	services, specifically children and young people					
Review of caselo methodology	oad and pro	gramme o	f visits, utilising a d	consistent		Planned programme of review based on Red/Amber /Green (RAG) rating within a 4-month timescale. Methodology devised to be used during visits including guidance and escalation. Mobilisation plan developed with action owners and timescales to cover all elements of the programme. Monitoring of individual cases and performance to be reported on a weekly Basis. NHSE are part of the incident management group and CQC has been informed.						
						Linked Risks						
Ref	Category	Des	scription					Previous Score	Current score	Movement		

NENC/0001	System recovery	System resilience, escalation planning and management and business continuity arrangements could lead to communities not receiving level of care needed during an incident, increased pressure across the system and inability to delivery core services	12	12	4 ►
NENC/0009	System recovery	As a result of workforce pressures, increased demand, infrastructure or technology issues, failure of or challenges to PCNs' ability to meet transformation agenda there is a risk that primary care is unable to provide long term, sustainable and reliable quality care services to patients	12	12	4 ►
NENC/0024	Quality	The ICB commissions services that fall below the required standards, putting patient health, safety and welfare at risk.	12	12	4>
NENC/0025	System recovery	If maternity services do not have adequate staff to provide safe services there is a risk to patient safety and patient experience.	12	12	4 ►
NENC/0047	Quality	The rates of suicide in the North East and North Cumbria are the highest in the country at 13.4 per 100,000 people. The risk to the ICB is that we do not suicide rate for people in contact with NHS commissioned and health care delivery services who may be amendable to healthcare preventative efforts.	12	12	Closed
NENC/0079	Quality	Patient safety concerns – complex care case management in Tees Valley. As a result of changes in complex case management, there has been inconsistent and variable oversight of the caseload, which has and could result in quality and safety concerns including the exposure and actual risk of harm (safeguarding harms).	12	12	4>

						NENC Board Assurance Framework 2024-25		Q2	Date: 19 Sep	otember 2024		
Goal 2	Fairer ou	tcomes fo	or all					David Pur	due			
Risk category	Finance; (Quality; Sy	ystem Recovery; W	Vorkforce			Lead director(s)	David Cha	andler

NENC/0028	Workforce	Widespread clinical and social care workforce challenges could impact on delivery of safe services, drive up witing times and lead to poorer outcomes for patients	15	15	4 >
NENC/0049	Quality	Continuing Care - variation in practice and compliance within the ICB/ICS could result in reputational damage, non-compliance with statutory duties, adverse financial impact, negative patient/family experience and adverse impact on the market and workforce.	12	12	◆ ►
NENC/0051	Workforce	As a result of there being limited dedicated funded resource to undertake 'Learning from lives and deaths – People with a learning disability and autistic people' (LeDeR) reviews and a continued increase in the number of reviews required, there is a risk that reviews will not be undertaken effectively and the ICB failing its statutory duty, which could result in limited learning, reduced quality improvement impact, continued circumstances which contribute to early deaths and reputational damage.	12	9	Removed (risk scored below 12)
NENC/0052	Quality	Risk to the ICB not meeting statutory duties and possible reputational impact due to an 'inadequate' CQC rating received for British Pregnancy Advisory Service (BPAS) termination of pregnancy pathways. Quality of service, patient safety and service resilience all concerns from inspection.	12	12	4>
