

Need the contraceptive pill?

If you take the contraceptive pill or you're looking to start, you can talk in private with a pharmacist. You do not need to see a GP.

HERE
TO
HELP

Just walk into a pharmacy and ask about their contraception service. You can also be referred by your GP or a sexual health clinic – but you don't need to be registered with a GP.

You'll be able to speak to a pharmacist in a private room.

If they decide the pill is right for you, they can give you a supply there and then.

**The service is free
and confidential.**

**The pharmacist won't tell
anyone about your visit –
not even your GP – unless
you say it's OK.**
